Square Bistro with Chairs

MEASURING GUIDE

In order to get the best fit of your new custom cover, it is important to make sure all measurements are accurate. Measure outer edges around the table with chairs in position to get the smallest configuration possible. Consider the perimeter of two chair configurations.

A / outer distance of chair backs =

B / depth of table top =

C / width of chair =

D / width of table (if different from “B”) =

E / height of chair =

F / height of table =
